### What He Does, Where And When To Use Him

Tim Bays uses light-hearted, uplifting music and stories to encourage people to pursue their dreams and find success on their own terms while maintaining a healthy work/life balance and enjoying the ride.

A unique keynote speaker and musical presenter, Tim brings humor and energy to opening or closing keynotes or anywhere else an event needs a lift. Always clean, always fresh, you won't hear anything like him anywhere else.

Part of what makes Tim special is his ability to create a custom song tailored to a company, association, industry or event. Such a song can be used to focus on challenges, allow employees or members to feel their concerns have been heard, introduce a new concept, slogan or initiative or simply be a motivational highlight during the presentation.

While he tells uproarious and pointed stories, 50-75% of the time Tim uses **songs** to carry his message. The **titles** alone speak volumes.

- ◆ He humorously invites listeners to "**Lighten Up**" and let go of the past because no matter how attractive "**Hindsight**" might be, "**There's Nothing (We) Can About It Now.**"
- ◆ He focuses on the positive pointing out that "**A Thousand Things Went Right Today**" and that we are surrounded by "**Everyday Magic.**"
- ◆ He celebrates the "**Cheap Thrills**" to be found in our relationships, jobs and the natural world, joys that cost no more than paying attention and are infinitely "**Better Than The TV.**"

### What He Does, Where And When To Use Him

- ◆ He asks, "**What Are You Waiting For?**" encouraging attendees to pursue their "**Dreams**" and "**Believe**" they can capture them, even if they sometimes feel like a "**3-Legged Dog.**"
- ◆ He challenges listeners to "**Move**" and "**Go With What You Got,**" overcoming uncertainty to take action NOW because life is short and we need to "**Live With The End In Mind.**"
- ◆ By the end of the program groups are on their feet, "**One Step Nearer Where (They) Need To Be,**" ready to "**Shine On.**"

While Tim is comfortable in most any situation, a background in both education and healthcare make him ideally suited for those fields. Adding his musical skills, a perfect fit might be presenting to music therapists as he recently did for the western region of the **AMTA**. He has, however, created songs and programs for corporations like **GE, Monsanto and Georgia Pacific** and a diverse cross-section of other companies, associations and groups including schools and churches.

Many speakers share similar insights and conference attendees can become immune to hearing even an important message. But having that message presented through song allows listeners to hear it in an entirely new way. And that makes all the difference.

**Fresh, fun and broadly appealing**
