

Tim Bays

Musically Speaking

(Bays is pronounced **BAZE**)

You may not recognize his **name**, but you'll probably recognize his **voice** from commercials for McDonalds, Coca Cola and Delta Airlines.

You may never have seen him perform his music live, but you've probably heard his **songs** as recorded by Randy Travis, Peter Paul & Mary and much to his mother's embarrassment, Jerry Springer!

Our special guest today/tonight is a recording artist who has also been a schoolteacher and, most importantly for **this** group, is an experienced psychiatric aide!

He's brought along several CDs today/tonight which will be available after the program. Included is the song "**Lighten Up,**" something he's incredibly **serious** about helping us do.

Please help me welcome....Tim Bays
